Grants for Schools

Peel Park Primary School will start to apply for school grants from 2018. There are hundreds of grant funding sources available to UK schools. These funds are available to schools for a wide range of activities and projects including:

- Equipment such as PC’s, Laptops, Books, and other similar resources.
- Promoting closer links with the wider community.
- Improving basic skills and raising individual achievements of students.
- Developing, improving or expanding school buildings, grounds and facilities.
- Promoting exercise and sporting activities.
- Installing green technologies and renewable energy in schools.
- The provision of special needs education and to raise attainment levels.
- Developing links with schools internationally.
- Developing and enhancing certain subject areas such as sports, music, art or science.
- Promoting closer links with the wider community.

You will start to see and hear more about these exciting opportunities and we hope that you can help by completing our skills audit and providing the school with vital information on how you or someone you know may be able to help on one of our projects.

If you would like more information please contact Stephannie Cunliffe 01254 231583 or e-mail s.cunliffe@peelpark.lancs.sch.uk

Thank you
