Mathematics	<b>Mastering Number (NCETM):</b> Identify when a set can be subitised and when counting is needed Subitise different arrangements up to 5 Make different arrangements of numbers within 5 Spot smaller numbers ‘hiding’ inside larger numbers Connect quantities and numbers Hear and join in with the counting sequences, including: that the last number in the count tells us ‘how many’ Accurate in counting and 1:1 correspondence Compare sets of objects by matching Begin to develop the language of ‘whole’ and ‘part’ Continue, copy and create repeating patterns Select, rotate and manipulate shapes to develop spatial reasoning skills Compare capacity		<b>Mastering Number (NCETM):</b> Subitising beyond 5 and increasingly connect quantities to numerals Identifying missing parts for numbers within 5 Exploring the structure of the numbers 6 and 7 as ‘5 and a bit’ Understand a ‘double’ and connect this to finger patterns Sort odd and even numbers Continue to develop their understanding of the counting sequence Order numbers and play track games Verbal counting beyond 20 Find 2D shapes within 3D shapes Compare length and weight using comparative language		<b>Mastering Number (NCETM):</b> Develop counting skills Counting larger sets as well as counting actions and sounds Explore a range of representations of numbers, including the 10-frame How doubles can be arranged in a 10-frame Compare quantities and numbers Continue to develop their understanding that that 8 is quite a lot more than 2, but 4 is only a little bit more than 2 on a number line ‘one more than’ and ‘one less than’ numbers within 10 Identify when sets can be subitised and when counting is necessary Develop subitising skills when using a rekenrek Compose and decompose shapes Compare length and weight using comparative language
